

PerfectStill™ & EDCE

(Ethanol Derived Cannabis Extract)

The PerfectStill™ System

All the tools and information you need to make high quality cannabis extract, "EDCE"

EDCE – Ethanol Derived Cannabis Extract

- Ethanol Only – The Solvent Does Matter!
- Full Profile for Healing
- Terpene Preservation
- Decarboxylation % Control
- Best Extract for edibles, rubs & sublingual's

Our #1 Priority: Safety and High Quality Medicine

Many promote dangerous and unhealthy alcohol extraction methods leading to fires, endangering lives and producing bad medicine

The Solution?

Simple scientific solutions designed specifically for cannabis extraction w/ safety features to protect lives & produce the best cannabis extract

PerfectStill™ Features:

- Safety First Design
- Custom Laboratory Glassware
- Variable Temp Boil
- Auto Shut Off – Protects Extract
- Closed System for Safety and Recovery
- Automatic Fans
- Stainless Steel Coils
- Easy Drain on Recovery Flask
- No Grease on joints avoids contamination
- Full Alcohol Recovery
- High Rate Distillation - \$ for \$
- Optional Nitrogen Purge

Rotovap's are not designed for alcohol distillation!
The PerfectStill™ alleviates all rotary evaporator vacuum issues for activated extracts:

- No flash boiling
